**« Observer
c'est pour la plus grande part,
imaginer ce que l'on s'attend à voir. »**

*Ambroise-Paul-Toussaint-Jules Valéry (1871-1945)

**« Le seul véritable voyage
ce ne serait pas
d'aller vers de nouveaux paysages,
mais d'avoir d'autres yeux... »**

**Complexity
is the impossibility of
separating a system from its context.
A living being from its environment.
An object from
its measuring instrument.**

Time To Return To Original Configuration

“The intuitive mind is a sacred gift and the rational mind is a faithful servant.

We have created a society that honors the servant and has forgotten the gift.”

Albert Einstein

Remembering The Futurist

Instinct is something
which transcends
knowledge. We have,
undoubtedly, certain
finer fibers that enable
us to perceive truths
when logical deduction,
or any other willful effort
of the brain is futile.

Remembering The Great Pioneer of Quantum Physics

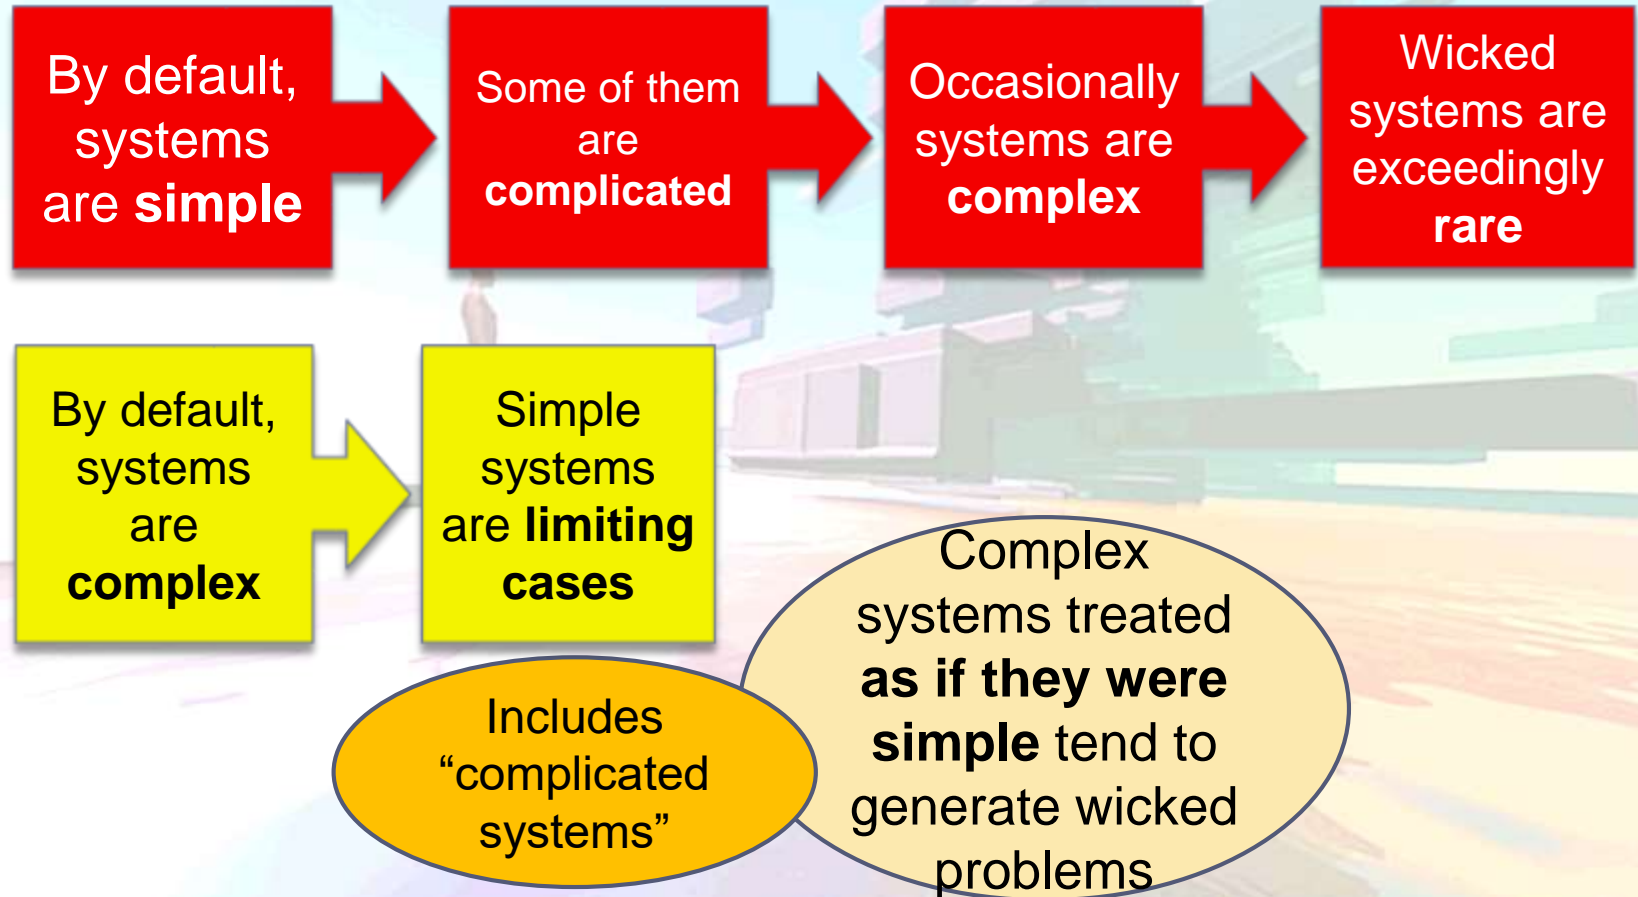

"Science cannot solve the ultimate mystery of nature. And that is because, in the last analysis, we ourselves are part of nature and therefore part of the mystery that we are trying to solve."

The Major Driver of Social Evolution

WE CANNOT SOLVE OUR PROBLEMS
WITH THE SAME THINKING
WE USED WHEN WE
CREATED THEM
- Albert Einstein

**We were and are still currently educated
to REDUCTIONIST learning
which leads to
ACTIONS based on (UNAWARE)
APPROXIMATED approximations.**

We MUST switch to

**EVOLUTIONARY learning
which can create the right
INTERACTIONS
with a complex world and universe,
based on
AWARE, EXACT approximations.**

The Challenge of Evolutionary Learning

Learning according to Tenzin Gyatso,
the 14th Dalai Lama (1935-)

Because we all share this small planet Earth, we have to learn to live in harmony and peace with each other and with Nature. That is not just a dream, but a necessity.

Challenges Confronting Democracy

If our fifth major risk is to apply only short-term solutions to long-term problems, according to John MacWilliams, as popularized by the recent book of Michael Lewis, then the biggest risk of all is to achieve a reduced awareness on our current INABILITY TO GET NEW EYES, according to WAAS.

**Our Biggest Driver for Social Evolution
and Equitable Development
MUST BE
The Increased Ability to Get New Eyes
by Appropriate Education
and
Evolutionary Learning.**
